

Product Specification 2009 – Electric outboards

Safari chooses **TORQUEEDO** electric outboards
STARNBERG.GERMANY

Powerful, highly efficient, modern designs at an affordable price.

Finally a sensible alternative to the petrol outboard.

We know, we've tried them. The cruise 2 powers our 20ft pontoon for 2 days (5 hours operating each day) using 2 x 120amp batteries. Carrying 250 customers per day .
